Gov. Otu Calls for Expanded Clean Energy Investments to Power Cross River's Blue & Green Economies

Governor of Cross River State, Senator Prince Bassey Edet Otu, has called for increased clean energy investments to accelerate development across the state's blue and green economies.

Governor Otu, represented by his Deputy, Rt. Hon. Peter Odey, made the call at the Rural Electrification Agency (REA) Strategic Roundtable held in Abuja on Tuesday. He commended REA for its strong support in

expanding electricity access across the state through regulatory backing, technical assistance, and the development of bankable renewable energy projects.

He highlighted major

achievements, including the 10MW solar farm at the University of Calabar, developed with support from the German government and private partners, which has significantly improved power supply to the university and its

teaching hospital. He also noted the installation of mini-grids at the General Hospital, Ogoja, and the Navy Reference Hospital, Calabar, as well as the distribution of 10,000 home solar units and over 1,000 solar streetlights and transformers.

Despite these gains, Rt. Hon. Odey stressed that 15 of the state's 18 LGAs still lack reliable power. He cited Ikom's prolonged blackout and persistent outages in Ogoja as examples, emphasizing the need for increased intervention. He

reaffirmed the state's commitment to establishing more solar mini-grids, hybrid systems, and energy-as-a-service models to unlock opportunities in fisheries, agriculture, forestry, and eco-tourism.

Earlier, the Secretary to the Government of the State, Prof. Anthony Owan-

Enoh, underscored the administration's "People First" agenda, noting that improving electricity access has remained a top priority since 2023. He said the roundtable brings together RESCOs, policy experts, and government officials to accelerate electrification in unserved communities. According to him, the discussions aim to clarify

government support, strengthen partnerships, and secure commitments for mini-grid development.

Setting the tone for the event, REA's Managing Director/CEO, Dr. Abba Aliyu, praised Cross River State for creating an enabling policy environment. He disclosed that 19

renewable energy projects are currently underway and, upon completion, will inject 26MWh of power, reaching over 78,565 households and SMEs. He emphasized that the 2023 Electricity Act empowers states to shape their energy future, noting that Cross River has taken commendable steps in attracting

critical clean energy investments. He also highlighted the deliberate theme, "Sustainable Impact Beyond Policies," reflecting the state's transition from policy formulation to real clean energy deployment.

The highpoints of the roundtable included presentations on REA's community mapping tools and financing by the

Agency's Executive Directors, an overview of renewable energy opportunities in Cross River by the Director General of the State Electrification Agency, Mr. Francis Ekpo, and the signing of a Memorandum of Understanding (MoU) between the Cross River State Government and the REA.

By Nakanda Iyadim

trained 120 youth volunteers from 20 communities in the Odukpani Local Government Area.

This training program, part of a UNICEF-assisted community engagement initiative, aims to

empower these youth leaders in essential family practices, including antenatal care, immunization, exclusive breastfeeding, complementary feeding, birth registration, and

the reduction of open defecation. They are expected to advocate for these practices at the community level.

While declaring the training programme held at the Odukpani Town Hall open, the Permanent Secretary of the Ministry of

Information, represented by Director of Information Mr. David Akate, expressed gratitude to UNICEF for its ongoing support for Cross River's children and mothers.

He commended UNICEF and all partners for their commitment, urging volunteers to take the training seriously and act as ambassadors of

social behavior change in their communities. He reaffirmed the Ministry's commitment to implementing community action plans effectively.

In a goodwill message, Mr. John Asanye, State Director of the National Orientation

UNICEF SBC Consultant Ms. Blessing Eberechukwu emphasized the importance of ownership in the program, encouraging volunteers to impact their focused groups effectively.

The State's Social Mobilization

Officer also announced the launch of the second round of Optimize Maternal Newborn and Child Health Week (OMNCHW2) and the Human Papilloma Virus (HPV) vaccination for girls aged 9 across all 18 Local Government Areas, urging volunteers to

mobilize community members to ensure vaccination uptake, highlighting that the vaccines are safe, free, and effective.

The interactive training session comprised paper presentations by resource persons in key thematic areas, followed by a technical session

led by Ms. Juliana Atialikong, Deputy Director, National Orientation Agency and technical advisor to the program.

The session outlined specific roles of the Community Youth Volunteers (CYVs) as they return to their respective communities.
